Mini ★ Theatre

This was a collection of bonus stories that ran in Nakayoshi Lovelv. Actually, it was the last-manga manga that I drew in one day. (Sweatdropped) It was tough but I really had fun drawing it. Its short length allowed me to include many characters, too! Since I could create this kind of manga at any time, I'd like to do it again.... I enjoy working with the side characters and revealing their backgrounds.

Everyone.
